

## Enviromax Series

- Non-phthalate, PVC free formulation.
- Prints on 100% cotton, poly/cotton, 100% nylon, and 100% polyester.
- Excellent adhesion to water resistant nylon without nylon catalyst.
- Available in white and all of our standard colors.
- Enviromax does have a shelf life. Best when stored below 77° F.

### Who should use this ink?

Any shop looking for a PVC free ink should consider the Enviromax Series as it performs very well on most fabrics.

### Who should not use this ink?

Due to the shelf life, it is not recommended to use Enviromax Series over our other high performance plastisols unless PVC free is necessary.

#### Flash Cure

240° – 260° F  
4 – 6 seconds

#### Cure Temperature

320° F  
60–90 seconds

#### Mesh Range

86 – 158  
Monofilament

#### Available Colors

#### Reducers

Auto Formula Additive

#### Clean-up

Saatichem PW-4  
Saatichem IR-4

Always perform a pretest print and test cure conditions on the fabric to be printed to establish the best results. Stir inks vigorously before each use. Viscosity may need adjusting for best results. If there is ever a question about a print job, call us at 1-800-942-4447. We are always happy to help!
