

800-942-4447

EZ Process Series

- Our newest 4 color process ink series.
- Formulated for very fine mesh and wet-on-wet screen printing.
- Creamy, easy-to-print viscosity.
- Largest color gamut for accurate photo reproduction.
- As with all 4 color process inks, requires a white underbase.

Who should use this ink?

If you are screen printing photo-realistic art on white tees or a white underbase, EZ Process Series will give you the most accurate color.

Who should not use this ink?

EZ Process Series colors are not opaque and should not be used for regular spot color prints. If you are screen printing spot color art, try our 480 Series.

Flash Cure

240° – 260° F
4 – 6 seconds

230 – 355
Monofilament

Available Colors

Reducers

Curable Reducer
Reducer #2
Visco Minus

Clean-up

Saatichem PW-4
Saatichem IR-4

Always perform a pretest print and test cure conditions on the fabric to be printed to establish the best results. Stir inks vigorously before each use. Viscosity may need adjusting for best results. If there is ever a question about a print job, call us at 1-800-942-4447. We are always happy to help!
