

800-942-4447

Soymax Series

- Non-phthalate, soy-based ink for cotton, blends, and nylon.
- Screen printing instructions are no different from standard plastisol.
- Great stretchability for cotton/lycra and nylon/lycra blends.
- Soymax inks are glossy while Soymax Plus inks have a matte finish.
- Standard and opaque Soymax colors and white are available.

Who should use this ink?

Screen printers looking for a green ink, look no further. Soymax Series inks are made from soybean oil. This makes them more renewable than petroleum-based products.

Who should not use this ink?

Soymax Series is not formulated for 100% polyester printing. We do offer Soymax Poly for this application.

Flash Cure

240° – 260° F
4 – 6 seconds

Cure Temperature

320° F
60–90 seconds

Mesh Range

86 – 230
Monofilament

Available Colors

Reducers

Soymax Reducer
Visco Minus

Clean-up

Saatichem PW-4
Saatichem IR-4

Always perform a pretest print and test cure conditions on the fabric to be printed to establish the best results. Stir inks vigorously before each use. Viscosity may need adjusting for best results. If there is ever a question about a print job, call us at 1-800-942-4447. We are always happy to help!
