

Sparkle Series

- Just like our Glitter Series inks but with a smaller glitter flake.
- Formulated for use on 100% cotton and poly/cotton fabrics.
- Sparkle inks are offered in both clear base and pigmented base.
- Custom ink series – we can combine any ratio of sparkle flake.
- Use a clear underbase when a high gloss appearance is necessary.

Who should use this ink?

Screen printers who do not want to print through ultra-coarse mesh counts can try the Sparkle Series as the flake is much smaller.

Who should not use this ink?

Sparkle Series is not formulated for screen printing 100% polyester materials. Always test before printing long runs as some colors will work better than others.

Flash Cure

240° – 260° F
4 – 6 seconds

Cure Temperature

320° F
60–90 seconds

Mesh Range

61 – 86
Monofilament

Available Colors

Reducers

Curable Reducer
Athletic Reducer
Visco Minus

Clean-up

Saatichem PW-4
Saatichem IR-4

Always perform a pretest print and test cure conditions on the fabric to be printed to establish the best results. Stir inks vigorously before each use. Viscosity may need adjusting for best results. If there is ever a question about a print job, call us at 1-800-942-4447. We are always happy to help!
