

## TECHNICAL DATA SHEET

### SHORT DESCRIPTION:

These convenient pen applicators of screen blockout makes spotting pinholes and repairing minor screen breakdowns easy. Blockout pens replace tape as the quick fix for jobs in progress. Blocked out pinholes stand up to repeated use of cleaning chemicals.

### BLOCKOUT PEN BENEFITS:

- Very quick and easy-to-use.
- Color-coded pens with very different uses (see below).
- Durable with many different ink types.

### BLOCKOUT PEN COLORS:

**Red** - A fast drying, water-soluble (10 to 15 minutes) blockout. Recommended for use during screen prep. Works with all stencil systems. Resists virtually all solvent based, plastisol, and UV inks. Reclaims with tap water.

**Green** - An ultra-fast drying, water soluble (30 to 90 seconds) blockout. Recommended for on or off the press touch-up of direct stencil systems. Resists plastisol, UV, and most solvent based inks. Reclaims with tap water.

**Blue** - A quick drying (10 to 15 minutes) blockout. Recommended for use during screen prep. Works with all stencil systems. Resists water based, plastisol, and some solvent based inks. Reclaims with emulsion remover.
